## **Q9. PALMYRENE NUMBERS**

Author: Michael Salter

The people of ancient Palmyra (in modern-day Syria) had a numbering system that was based on the older Aramaic system, but with a small twist. Below are ten Palmyrene numbers, and underneath are their Hindu-Arabic equivalents, given in random order:

- 1.  $|| \forall \neg 333 \neg |$ 2.  $\forall 33$ 3. | 4.  $|| \forall \neg$ 5. || 33336.  $|| \neg 3333 \neg || ||$ 7.  $|| \forall$ 8.  $||| \neg \neg ||$ 9. || ||10.  $\neg ||$ 1, 4, 7, 18, 45, 83, 178, 200, 314, 492.
- 1. Determine the correct correspondences.
- 2. Write in Palmyrene notation: 31, 94, 145, 300, 477.
