

Question 7: Georgia's always on my mind

Author: Harold Somers

Tbilisi is the capital of Georgia, a country in the Caucasus region of Eurasia. On the next page is a list of (some of) the stations on its subway (underground) system, written in Georgian, together with the equivalent English names of the stations, though not in the same order. While most of the names are simply transliterated, a few of them are rather translated and so do not match exactly. Note that J is pronounced like the 'y' in 'yes', and that the following sequences are regarded as single letters: DZ, SH, TS.
